

MAC 1105 Course Syllabus

Course Name: College Algebra Course Number: MAC 1105 Section (CRN): 10795 Credit Hours: 3 Instructor Name: Peter Hovanec Instructor Office Location: In class before or after class or by appointment. Instructor Email: hovanecp@nwfsc.edu

Course Curriculum

In this course, students will develop problem solving skills, critical thinking, computational proficiency, and contextual fluency through the study of equations, functions, and their graphs. Emphasis will be placed on quadratic, exponential, and logarithmic functions. Topics will include solving equations and inequalities, definition and properties of a function, domain and range, transformations of graphs, operations on functions, composite and inverse functions, basic polynomial and rational functions, exponential and logarithmic functions. Non-symbolic graphing calculators are required. The TI-83/84 Series is recommended. A minimum grade of "C" is required if used to meet requirements for general education.

Goals

The goal of this course is to give the student (1) a thorough background in algebra as a basis for the precalculus, trigonometry, calculus sequence and (2) algebra skills and concepts useful in any future mathematics course work. It is expected that the student will be able to understand the concepts of algebra as well as work a range of problems, from basic problems up to the more difficult application and conceptual problems.

Objectives

Student Learning Outcomes:

- Students will solve an equation or an inequality using an appropriate technique.
- Students will define and describe functions, their properties, and graphs.
- Students will manipulate functions to simplify expressions and find new functions.
- Students will use transformations to write an equation for a function and to graph a function.
- Students will model and solve real world problems using functions.
- Students will demonstrate technology literacy by using a calculator to graph and analyze functions.

Expectations of the Instructor and Course

a. Office Hours: Before or after class or by appointment.

b. Your NWFSC email is the official communication medium of the College. Please check College email regularly for any class and College notifications. I am always checking on CANVAS, Please feel free to email me on Canvas, I will respond usually within 24 hours.

c. Learning Management System Usage Notification: Canvas Resources. are available for students to learn more about using the Canvas learning management system we are using for this course. Since all assignments are submitted through Canvas and/or ALEKS (unless otherwise noted), access to a computer is required for this course. Students have free access to computers at all campuses. Canvas lists minimum computer specifications and supported browsers to ensure compatibility. The Chrome browser is recommended.

d. ALEKS: Engages students with online tools used for formative assessments.

Expectations of the Student

a. ACADEMIC INTEGRITY: Active and honest engagement in academic pursuits contributes to an environment conducive to optimal learning, aligning with the college's mission. Conversely, academic misconduct, such as cheating or plagiarism, undermines the integrity of the educational atmosphere and will not be tolerated. "Cheating" encompasses any unauthorized aid in completing coursework. Depending on the severity and frequency of such misconduct, sanctions may range from receiving a failing grade or zero on a test, assignment, or activity to course failure, or even suspension or dismissal from the program or college.

b. Attendance Policy: Attendance is taken every day. Penalty may be assessed for missing part of class and bonus points may be awarded for showing up early. Students are expected to attend all their scheduled classes, as attendance is one of the strongest predictors of success.

How Student Performance Will be Measured

This course uses various summative assessments to measure student performance toward the student learning outcomes listed above.

Assignment Schedule: Assignments and Grades will be available on Canvas. All Class tests will be announced in advance. Please check Canvas regularly.

Grading Scheme and Procedures

Class Tests – 40%, Final Exam – 20%, Homework – 5%, Worksheets – 5%, Attendance – 5%, Canvas Quizzes – 15%, Canvas Exams – 10% A 90+ B 80 – 89.9 C 70 – 79.9 D 60 – 69.9 F <60
