NORTHWEST FLORIDA STATE COLLEGE BOARD OF TRUSTEES POLICY MANUAL

PREFACE

The *Northwest Florida State College Policy Manual* contains Board of Trustee adopted policies. The policies covered within this manual are established by Florida Statute, State Board Rules, Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) policy, and the Office of the President.

The Board of Trustees is the policy-making body of the institution. The President's Advisory Council is the internal organization of the College that enables College employees to participate in the policy-making process. This policy book was developed through a process that included the review of policies and revision by the College Administration, review/revision by Board members, advertising for adoption by the Board of Trustees, and adoption by the Board of Trustees at the subsequent meeting.

Policy-making is an on-going process and as a result, policies will be added, deleted, and modified, as needed.

The Board of Trustee Policy Manual is available on the NWF State College Web Site: <https://www.nwfsc.edu/about/leadership/board-of-trustees/>

If assistance is needed in understanding policies or making recommendations for suggested policy changes, please contact the President's Office at 850-729-5360 or board@nwfsc.edu.

NORTHWEST FLORIDA STATE COLLEGE BOARD OF TRUSTEES POLICY MANUAL

STATEMENT OF PHILOSOPHY AND ACADEMIC FREEDOM

All professions are characterized by special, rigorous educational and experiential preparation which is objectively documented; dedication to the wider purposes of the profession; standards of honor; and a continuing curiosity about the profession.

Given these qualifications, the professional educator is a member of a profession distinguished by several unique characteristics, including stringent educational preparation and frequent updating; expertise in a special discipline encompassed by the profession; unswerving loyalty to the profession; a commitment to lifelong learning and development; adherence to self-imposed high standards in intellectual, moral, and social matters; and a sense of responsibility to the profession, to those served by the profession, and to society as a whole. Professionalism thus entails behavior and attitudes characterized by pride in one's self and one's chosen career, respect for the people served, and commitment to the continuing development of skills in the pursuit of excellence. Standards provide the framework within which the professionals carry out their obligations to each other, to the people they serve, and to society in general.

Northwest Florida State College personnel recognize that the best way to put this philosophy into action is through the leadership of professional educators and support personnel, working together with students, in a collegiate environment that is both challenging and nurturing. Critical elements of such relationships and such an environment are the freedom to exercise professional judgment; cooperation; broad-based participation in decision-making which includes all levels of professionals; open, honest communication; trust; a harmonious atmosphere; and attitudes which both promote and cultivate the development of potential in students, in faculty and staff, and in the community.

Northwest Florida State College personnel are committed to the highest ideals of professionalism as practiced within the legal framework of Florida Statutes, State Board of Education Rules, and policies established by the College's Board of Trustees.

The College will be guided in its actions by the most recent medical evidence, federal regulations under the Rehabilitation Act of 1973 and ADA, State regulations under Florida Statute [FS 1006.68](#) and guidelines suggested by the Center for Disease Control, the State Board of Education, the American College Health Association and the Department of Children and Family Services.

In instances where an HIV-positive employee is unable to fulfill all of his/her regular responsibilities, or portions of these responsibilities, the College will, if requested, make a reasonable effort to accommodate the employee's disability within ADA law.

If an employee with an AIDS condition requests job accommodation for his/her medical condition, the employer must obtain a written medical opinion that he/she (a) is medically able to work and (b) needs reasonable job accommodation in order to maintain employment.

Any employee who informs the College that he/she is HIV-positive will be accorded confidentiality regarding disclosure of the medical condition, in accordance with established statute or case law.

Any HIV-positive employee will be allowed to use accrued sick or annual leave as needed, per college Sick Leave Policy.

Information that an employee has AIDS is confidential and will not be entered into personnel records of the employee which are open to any employee of the College other than the President, his designee, or the Office of Human Resources. No person to whom the results of a test have been disclosed may disclose the test results to any other person except as authorized by Florida Statute [FS 381.004](#).

Whenever disclosure is made pursuant to said Florida law, it will be accompanied by a statement in writing which includes the following or substantially similar language: "This information has been disclosed to you from records whose confidentiality is protected by State law. State law prohibits you from making any further disclosure of such information without the specific written consent of the person to whom such information pertains, or as otherwise permitted by State law. A general authorization for the release of medical or other information is NOT sufficient for this purpose." If an oral disclosure of test results is made pursuant to the authority of Florida Statute [FS 381.004](#), then said oral disclosure will be accompanied by oral notice of the language quoted above, and then will be followed by written notice of the language quoted above within ten (10) days. Any request for information regarding test results of a particular employee or the need for testing of a particular employee will be directed only to the President or his designee.

TITLE: Organization of the Board, Procedures for Meetings and Public Comment	NUMBER: GP 16.00
AUTHORITY: Florida Statute FS 120.525 ; FS 286.011 ; FS 286.0114	SEE ALSO: •
DATE ADOPTED: 03/05 REVISED: 03/19	BOARD SECRETARY: 

PURPOSE OF POLICY

To provide guidance for conducting Board meetings, meetings of Board sub-committees, and the selection of Board officers.

LOCAL LANGUAGE

The Board of Trustees shall elect a Chair and Vice Chair, set a meeting schedule for the year, and specify the meeting place in June of each year. The schedule for meetings will be posted on the College’s website. The organization of the Board will be forwarded to the Florida College System. Special meetings may be called by the Chair and President when needed. A majority of the total board membership shall constitute a quorum. A quorum will consist of a majority of active and engaged board members. Board members who have resigned, relocated out of the college’s service area, are incapacitated (i.e. hospitalized), or are deceased, will not be considered as active and engaged. All other Board members, even if their appointed term of service has expired, will be included for Board quorum calculation purposes.

Electronic/Telephone Attendance at Board Meetings by Board Members

(1) Any member of the Board of Trustees may participate and vote in a regular or special meeting of the Board or any of its committees under the following circumstances:

- a) A quorum of the Board is physically present at the meeting site, and
- b) The absence of the Board member is due to extraordinary circumstances, and
- c) The absent member is able to participate in all discussions at the meeting, is able to be heard by the physically present members and the public, and is able to hear all discussions at the meeting by use of telephone conferencing devices or other interactive electronic technology.

(2) Interruptions in communication, such as power outages, signal interference, illness and other such events shall not operate to interrupt or delay the conduct of the meeting in question. The board member wishing to participate must notify the Office of the President of the College prior to the meeting to arrange for equipment to be present at the meeting.

Guidelines for Addressing the Board

The Board recognizes its responsibility to provide a reasonable opportunity to members of the public to be heard on propositions before the Board, the following shall apply to public appearances before the Board:

(1) The public shall be given a reasonable opportunity to be heard on a proposition before the Board. For purposes of this policy, a “proposition before the Board” means an item on the Board’s Agenda for the meeting at which members of the public are requesting to be heard.

(2) The portion of the meeting during which the participation of the public is invited shall be limited to thirty (30) minutes, unless extended by the Board Chairperson (or other presiding member in the absence of the Board Chairperson).

(3) It is anticipated that a board member will make every effort to attend meetings in person. The determination of whether “extraordinary circumstances” exist is a determination that must be made in the good judgement of the board members at the meeting in question. At the start of a meeting in which a member requests to participate by electronic means, and upon motion and second by members physically present, a vote of the members physically present and constituting a quorum, after hearing the facts constituting “extraordinary circumstances,” shall be taken and an affirmative vote of a majority of those physically present is necessary to allow the participation of the absent member. There shall be no appeal from the vote described herein. A board member shall not be considered present at the meeting unless and until the members physically present approve the participation as stated above.

(4) The opportunity to be heard may or may not occur at the same meeting at which the Board takes action, as long as the opportunity occurs at a meeting during the decision-making process and is within reasonable proximity in time before the Board takes official action. Such persons or groups shall be advised, in writing, by the President of the date and time at which they can appear before the Board.

(5) All statements shall be directed to the Board as a whole, and not to individual members. Staff members shall not be expected to answer questions from members of the public unless called upon by the Board Chairperson or the President.

(6) The opportunity to be heard shall be limited to five (5) minutes for an individual or for a Representative of a group or faction. The time periods may be extended at the sole and absolute discretion of the Board Chairperson. Persons allowed to make public comment may not cede all or part of their allotted time to other individuals or representatives.

(7) Individuals and representatives will generally be permitted to speak in the order in which their requests are received, however the Board Chairperson shall have the authority to arrange the order of speakers in any manner deemed appropriate for the orderly conduct of the meeting. The Board Chairperson may inquire as to whether the person making a public comment is there to speak for, or represent, an organization, group, or third party. The Board Chairperson may decline to hear any matter determined by the Chair not to relate to a particular agenda item or that is outside the Board’s jurisdiction, or because it is not practicable for a particular meeting.

(8) The use of audio/visual equipment to make or supplement public comment is not permitted absent prior authorization of the Board Chairperson or the President.

(9) College Matters shall be brought before the Board by the President of the College, or, at his/her request, by appropriate members of the administrative staff, the instructional staff, or appropriate students of the College.

(10) Members of the Northwest Florida State College faculty, staff, or student body who desire to appear before the Board shall follow the procedures for general citizen participation.

(11) The opportunity to be heard is subject to all College policies and procedures, and does not prohibit the Board from maintaining orderly conduct or proper decorum in a Board meeting. In order for meetings to proceed in an efficient and orderly manner, the Board Chairperson may in his or her absolute discretion:

- a) Limit the number of speakers, shorten or lengthen the time allowed to speakers, or designate a representative to speak on behalf of a group or faction consisting of 5 or more individuals.
- b) Interrupt, warn, or terminate public comment when a person's allotted time has elapsed, or is unrelated to the Agenda item identified by the person's request, or when it is personally directed, abusive, obscene, or irrelevant.
- c) Request any individual to leave the meeting when that person does not observe reasonable decorum.
- d) Request the assistance of security and/or law enforcement in the removal of a disobedient person when that person's conduct interferes with the orderly progress of the meeting.
- e) Call for a recess or an adjournment to another time when the lack of public decorum so interferes with the orderly conduct of the meeting as to warrant such action.

(12) Persons or groups desiring to address the Board concerning items **not** on the Board's Agenda shall file with the President's office, ten (10) days before the regular meeting in which they desire to address, a written request for appearance before the Board that shall include the following information: Name and address of person(s) desiring to appear before the Board, the group or organization or individual whom they represent, the nature of the matter to be discussed, and specifics as to questions to be answered or actions to be taken by the Board. Such requests shall be evaluated by the Board Chairperson. Unless required by applicable law, such requests shall be denied with respect to any ongoing legal or personnel matter, or any matter that has not been fully exhausted through internal administrative channels. In reaching a decision to grant or deny such requests, the Board Chairperson shall consider the following:

- a) the number of items on the Board's Agenda;
- b) the number of requests made or anticipated to speak on Agenda items;
- c) the substantive nature of the requested matter;
- d) the prior presentation or consideration of the matter by the Board;
- e) the likelihood of disruption if the request is granted; and
- f) whether the interests of the College would be advanced by granting the request.

(13) No signs, placards, or banners will be allowed in the Board meeting. Disrespectful behavior or distractions such as clapping, cheering, heckling, and outbursts in support or opposition to a speaker's comments, is discouraged and may subject a person to warning by the Chair, as well as expulsion from the meeting should the behavior continue.

(14) The opportunity to be heard does not apply to the following:

- a) An official act that must be taken to deal with an emergency situation affecting the public health, welfare, or safety, if compliance with the requirements would cause an unreasonable delay in the ability of the Board to act.
- b) An official act involving no more than a ministerial act, including, but not limited to, approval of minutes and ceremonial proclamations.
- c) A meeting that is exempt from Florida Statute [FS 286.011](#), as may be amended (the Public Meetings Law).
- d) A meeting at which the Board is sitting in its quasi-judicial capacity.

Agendas

Agendas for Board meetings, Committee meetings and Workshops will be posted and distributed in compliance with requirements of Florida Statute [FS 120.525](#).

Appeals

If a person decides to appeal any decision made by the Board with respect to any matter considered at a meeting or hearing, he/she will need a record of the proceedings, and for such purpose he/she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

Committee Meetings

The Board Chair shall appoint appropriate Board Committees and shall be, along with the President, ex-officio members of all Board Committees. Minutes shall be taken at each Committee meeting and presented at the following regular Board meeting.

LOCAL LANGUAGE

NWF State College normally will be in operation from 7:30 a.m. through 11:00 p.m., Monday through Friday; therefore, these hours and days encompass the normal "working time" of the employees of the College. Personnel may be assigned to work before or after these hours, and/or on weekends, as needed in support of College activities.

Facilities will be used from Friday at 4:30 p.m. through Monday at 7:30 a.m. only for special, approved, scheduled activities or for individual office use.

Public events and special use of College facilities will require the approval of the College President or his/her designee.

"Working time" will be defined as that time in which an employee has any scheduled obligations, whether instructional or non-instructional, to perform with respect to his/her position at the College, including but not limited to, all such obligations as required office hours, committee work, conferences, and official meetings.

College personnel will not be subjected to solicitations by any groups or persons on campus when any person involved in the solicitation is on "working time" as defined above. Representatives of board-approved agents and organizations such as College-approved insurance carriers may solicit College employees on working time with prior arrangement for facilities through the College President or his/her designee.

Administrative or exempt employees who are required to work on a College holiday will be given an equivalent holiday within the same week or as soon as possible.

Employees covered by the Fair Labor Standards Act are entitled to overtime pay for any hours worked in a work week in excess of forty (40) hours, at a rate equal to 1.5 times their normal hourly rate. Hours worked in excess of 40 hours during the work week are compensable at the rate of one and one-half hours for each hour.

Exception

NWF State College Police (NWF-PD) Officers work 40 hours per week. NWF-PD officers are entitled to overtime pay for hours worked in excess of 40 hours during their normal work week.

The appropriate supervisor will work with his/her employees to develop adjusted work schedules, such schedules being reflected on the employee's monthly time reports. Supervisors will monitor the adherence to the adjusted schedule.

Adjusted work schedules requires prior approval and will only be allowed as it benefits the needs of the College.

LOCAL LANGUAGE

Each full-time employee shall earn one day of sick leave with pay for each calendar month, or major fraction (51% of the work days) of a calendar month, of full-time service within each fiscal year.

Any employee of the College may request that he/she be allowed to draw upon the potential sick leave entitlement which he/she reasonably anticipates he/she may earn under his/her current contract (or employment agreement) at such time as an illness or accident causes his/her accumulated sick leave to become over-extended.

Should an employee for any reason fail to complete his/her contracted period of service, his/her final compensation shall be adjusted (or repayment made by the employee) in such amount as is necessary to ensure that payments made to a person by the College for sick leave days shall not have exceeded the actual earned days of sick leave.

Terminal pay to a full-time employee for unused sick leave at the time of retirement or death shall be granted in accordance with the provisions of Florida Statute [FS 1012.865\(2\)\(d\)\(e\)](#), not to exceed the daily rate of pay multiplied by fifty percent (50%) times the number of days of accumulated sick leave, provided the person at the time of retirement shall have been a full-time employee and shall have initiated his/her retirement within one calendar year of the last day of actual full-time service (including any authorized annual or sick leave) to the College. Persons employed under the Retirement Incentive Plan Employee Agreement shall be compensated for accumulated sick leave as specified in the executed agreement. The rate of pay for such terminal sick leave days shall be at the rate as of the final day of actual full-time service to the College.

The Title IX Coordinator will inform both the Complainant and the Respondent of the process and ensure that each party is given a copy of the complaint.

TITLE: Reduction in Force	NUMBER: HR 25.00
AUTHORITY: Florida Statute: FS 1004.64 ; FS 1001.65(3) ; SBR 6A-14.026	SEE ALSO: •
DATE ADOPTED: 08/21	BOARD SECRETARY: 

PURPOSE OF POLICY

To document the process to be used in the event of a reduction in force.

LOCAL LANGUAGE

Per Florida Statute [FS 1001.65\(3\)](#), the College President is authorized to “[e]stablish and implement policies and procedures to recruit, appoint, transfer, promote, compensate, evaluate, reward, demote, discipline, and remove personnel, within law and rules of the State Board of Education and in accordance with rules or policies approved by” the Board.

Reduction in force means termination, reclassification, or demotion of employees due to a financial exigency, decline in enrollment, or other material change in the duties or organization of the College or any of its programs or departments, subject to applicable state and federal law and Board policy.

Determining a Reduction in Force is Necessary

As stewards of a public college, the Board and the President are responsible for reviewing and maintaining the College’s financial health and mission-driven performance and for adjusting, as necessary. If the College must reduce expenses or otherwise change duties or College organization to serve the College’s mission, the President may implement a reduction in force by following the procedure outlined in this policy. A reduction in force will be a last resort to preserve and protect College operations.

Guidelines for Implementation

The President has the authority to initiate a reduction in force. All positions at the College are eligible for consideration. Prior to initiating a reduction in force, the President will take all available steps to limit the positions affected, including, but not limited to, leaving open vacant positions and determining whether any current employees are willing to resign or retire voluntarily.

If the President determines a reduction in force is necessary, the President will use objective, reasonable, and non-discriminatory criteria to determine which positions must be eliminated or reclassified, consistent with

state and federal law and Board policy. The controlling criteria in any determination will be service to the College's core mission and necessity of the position to College operations. When the reduction in force requires a reduction in full-time faculty with continuing contract, for those employees the President will follow the procedure set out in TL 14.00 for consolidation, reduction, or elimination of a program or restriction of the required duties of a position by the Board.

After determining which positions will be impacted, the President shall provide the list of affected employees and supporting rationale for the reduction in force to the Board at the next Board meeting. Supporting rationale will include the reason for the reduction in force; what areas of the College are affected by the reduction in force; monetary savings of the reduction in force; and a description of methods other than a reduction in force that the President attempted prior to initiating a reduction in force. If approved by the Board, the President will implement the reduction in force. The decision of the Board shall be final.

The President will provide notification to employees affected by a reduction in force with all due haste, which will include at least 15 business days' written notice, unless state or federal law requires a longer notice period. Employees affected will be notified that the reduction in force is without prejudice to future hiring by the College and does not reflect negatively on their personnel file.

Additional Considerations

The President's determination and Board's approval will not be controlled by any previous contractual relationship with any employee. This policy does not create an expectancy of employment for any employee. This policy does not alter or limit Board policy or College procedure for termination, suspension, resignation, retirement, position elimination, or other governance of its relationship with its employees.

NWF State College recognizes that certain disabilities may preclude a student from successfully completing a specific course requirement for a degree even with appropriate accommodations. NWF State College recognizes its obligation to accommodate students with disabilities without compromising the integrity of the academic program; therefore, in accordance with State Board of Education Rule [SBR 6A-10.041](#), the following policy is established for providing reasonable course substitutions for eligible students with disabilities as required by Florida Statutes [FS 1007.264](#) and [FS 1007.265](#) and consistent with the Americans with Disabilities Act and other appropriate laws.

Students seeking a course substitution shall present appropriate documentation to the Director of Accommodations. Requests for course substitutions will be considered on an individual basis based on the disability documentation and academic record of the student making the request. Documentation needs “to substantiate that the disability can be reasonably expected to prevent the individual from meeting requirements for admissions to the institution, admissions to a program of study, or graduation.” The course substitution approval or denial will be made in conjunction with the Executive Director of Academic Records and Enrollment.

Procedures for obtaining accommodations are maintained in the College Catalog, the orientation program, academic advisement, the College website, and printed materials available through the Student Success Department.

DATE ADOPTED: 10/13 REVISED: 03/19; 08/21	BOARD SECRETARY: 

PURPOSE OF POLICY

To define the structure, initial award process, and post award processes relating to continuing contracts for full-time faculty members

LOCAL LANGUAGE

The Board directs and authorizes the College President or his/her designee to establish procedures related to appointment, employment, and regular evaluation of faculty members. Procedures will address frequency and methodology of assessment, designation of faculty rank, and dismissal or return to annual contract status.

Definition of Terms

Review: annual assessment of faculty members' performance, conducted in every year before the Continuing Contract Evaluation.

Evaluation: the assessment of faculty members' performance is conducted every five years. The first five-year Evaluation determines whether the faculty member is recommended to the College President and Board for continuing contract.

Continuing contract: a contract that, in accordance with the terms of this policy, is awarded to certain faculty members and that renews annually. .

Annual Contract Status

The College may offer full-time faculty members an annual contract. An annual contract may be renewed each year, or it may be allowed to terminate without renewal. Faculty on annual contracts may be dismissed in accordance with the terms of their contract. The College is not obligated to provide a reason for dismissal of a faculty member on an annual contract prior to the award of continuing contract.

Continuing Contract Status

A continuing contract award is a change in contract status. A continuing contract is a contract that renews annually, except as provided in this policy.

The award of continuing contract status expresses that the College President and Board have trust and confidence in a faculty member's performance and an expectation that satisfactory performance will continue in the future. This expectation of excellence does not end with the continuing contract award. After the award, faculty members must formally demonstrate a continued commitment to the welfare of students, their own professional development, and the advancement of the College mission.

Candidates for continuing contract status are required to present quantifiable and measured evidence of effectiveness in all areas of the faculty job description. Continuing contracts are awarded to full-time faculty members who exhibit excellent performance, successfully complete annual reviews, and pass a continuing contract evaluation. The President will verify continued performance through post-award evaluations occurring at five-year intervals after the initial award and through reviews occurring annually after continuing contract is awarded. The award and post-award evaluation process are described in detail below.

The purpose of continuing contract awards is to create an environment of trust, cooperation, and collegiality between faculty members and College administration. This relationship is vital to the growth and development of the College. Honest debate and critique without fear of reprisal or negative repercussions are crucial to the continued enhancement of all aspects of the College's mission. Continuing contract also reinforces the integrity of the teaching and learning process. Faculty members may proceed with academic freedom to develop course content, present it in the classroom, and hold students to the highest standards.

Eligibility Process for Awarding Continuing Contract

1. At the end of each academic year during the initial five-year service period*, a review of the faculty member's performance will occur. This review is conducted by the Department Chair or Program Director and approved by the appropriate Dean.
2. Full-time faculty members in continuing contract-track appointments become eligible for consideration for a continuing contract award during their fifth year of service after successfully completing four annual reviews.*
3. During the fifth year of service*, after successful completion of four yearly reviews, a faculty member applies for the award of continuing contract. Upon receipt of the application, the Department Chair or Program Director will coordinate with the appropriate Dean and the Vice President of Teaching and Learning (VPAA) to form a continuing contract evaluation committee. A faculty member may opt to forgo or delay application for continuing contract status. In so doing, the faculty member will remain on an annual appointment and receive annual performance evaluations.
4. If the evaluation committee concurs that the faculty member has shown excellent progress and performance in the yearly reviews and in the continuing contract evaluation, a recommendation to award continuing contract will be made to the President.
5. If the President concurs with the recommendation, he or she will recommend to the Board of Trustees that a continuing contract be awarded.
6. If the Board of Trustees concurs, the Board and President will formally notify the faculty member that the award has been made.

7. Each employee issued a continuing contract shall be entitled to continue in his or her respective full-time faculty position at the College without the necessity for annual nomination or reappointment until the individual resigns from employment, except as described in this policy.

*Three years for those hired prior to July 1, 2013.

Yearly Review Process

At the end of each academic year, full-time faculty members in a continuing-contract track appointment will participate in a review of their performance conducted by their Department Chair or Program Director. A full-time faculty member's primary duties fall into five broad categories: teaching, professional development, advising students, service to the College, and community outreach. Teaching is considered the faculty member's primary responsibility at Northwest Florida State College. The ratio of each remaining area is intended to be flexible as appropriate to the discipline and will be determined upon consultation among faculty members, the Department Chair or Program Director, the Dean, and the VPAA. The VPAA will ensure that details of annual review procedures and assessment instruments are published in the Faculty Handbook.

At the time of the yearly review, faculty members will describe and document their activities and discuss their performance in the following areas:

1. **Quantifiable and measured effectiveness in the performance of the primary teaching responsibility.** The measurement of a faculty member's teaching performance may include demonstrated learning gains, student success rates in courses taught by the faculty member, observations made by the supervisor, student evaluations, course completion rates, continuing success in subsequent and additional courses or educational pursuits, and, where necessary and applicable, graduation and/or certification rates, job placement rates, applicable assessments from colleagues, and employer surveys. This data may be assessed in relationship to department, College, and system performance metrics. If student learning outcomes and student evaluations of the faculty member are below department, College, and system norms for an extended period, the Department Chair or Program director will notify the Dean and determine the cause. If the cause is determined to be deficiencies in teaching, preparation, or behavior toward students and colleagues, this determination will be conveyed in good faith to the VPAA, who will decide what action should be taken.
2. **Continuing professional development and currency in the subject matter.** Faculty members are expected to participate in activities that advance their knowledge and skills in ways that enhance student learning. These may include research, participation in conferences and other continuing education opportunities related to the faculty member's subject area, or other relevant projects undertaken in coordination with the Department Chair or the Program Director. These activities should be documented and presented at the time of review.
3. **Service to the College.** Full-time faculty members are expected to serve on College committees and/or in activities that advance the achievement of the mission of the College. Service activities will be determined to be appropriate by the Department Chair or Program Director upon review.
4. **Student advising.** Faculty members are expected to participate in the process of advising students as they pursue their academic goals. A faculty member's experience and advice can prove invaluable to students as they chart a course for their lives.

5. **Community engagement.** Faculty members are expected to provide service to the community. Outreach activities help the College form valuable relationships with the community. These relationships can lead to many enhanced learning opportunities for students, help faculty to develop professionally, and greatly improve the public's understanding of and appreciation for all the College has to offer. Similar reviews occur following award of continuing contract. See below.

Continuing Contract Evaluation

After successful completion of four annual reviews, during the fifth academic year following appointment to a continuing-contract-track position, the faculty member applies for the continuing contract award. To apply, the faculty member will present a professional portfolio of materials collected for each of the previous yearly reviews conducted by the Department Chair or Program Director. Additional materials supporting the application may be required as determined by each department. The VPAA will ensure that details of continuing contract evaluation procedures and assessment instruments are published in the Faculty Handbook.

Upon receipt of this application, the department chair will coordinate with the appropriate Dean and the VPAA to form a continuing contract evaluation committee. The continuing contract evaluation will proceed as follows:

1. The faculty member applies for a continuing contract award and submits required professional portfolio materials to the Department Chair or Program Director.
2. The Department Chair or Program Director notifies the Dean of the application.
3. The Dean forms a continuing contract evaluation committee (the Dean does not participate on the committee). This committee will include up to seven members:
 - a. The Department Chair or Program Director chairing the committee.
 - b. At least two full-time, continuing contract status faculty members from outside the candidate's own department.
 - c. If possible, two continuing-contract status faculty members from inside the candidate's own department for peer review.
 - d. One faculty member on annual appointment from outside the candidate's own department.
 - e. One faculty member on annual appointment from outside the candidate's own department.
 - f. A senior staff representative.

One of the committee members will be an equity representative trained to maintain equity and fairness in all aspects of the process. If the integrity of the process is breached in any way, the equity representative shall report the nature of the breach to the Director of Human Resources immediately.

4. Members of the committee evaluate the application materials.
5. A continuing contract evaluation interview may occur with the faculty member present to respond to any questions or concerns from committee members.
6. An anonymous vote is taken. If the committee believes that the faculty member has demonstrated excellent performance and the Dean concurs, the Dean will notify the VPAA and the President that the faculty member is recommended for continuing contract award. The committee's vote is confidential and will only be revealed to the appropriate Dean. The committee and its members are not authorized to discuss their decision or their rationale for that decision with the candidate or others until a final decision regarding continuing contract status has been made by the Board of Trustees. Upon Board action, the President will notify the faculty member of the decision. If the committee's vote indicates that a continuing contract should not be awarded, this result is transmitted to the Dean. The committee's

vote is confidential and will only be revealed to the appropriate Dean. The committee and its members are not authorized to discuss their decision or their rationale for that decision with the candidate or others until a final decision regarding continuing contract status has been made by the Board of Trustees. The Dean will notify the VPAA and the President that the committee has declined to recommend the faculty member for continuing contract. Upon Board action, the President will notify the faculty member of the decision.

7. If the Dean does not concur with the vote, written notice will be given to the VPAA and the President of the committee's vote, and the Dean will identify his or her concerns. Upon Board action, the President will notify the faculty member of the decision.
8. If the Dean recommends the award of continuing contract status, and the VPAA and President concur, the President will recommend to the Board of Trustees that the faculty member be awarded continuing contract status.
9. In the case of a continuing contract evaluation committee vote against awarding a continuing contract, the VPAA and President may elect either to extend the faculty member's annual contract for up to two years, or not to reappoint the faculty member at the end of his or her current annual appointment. If the annual contract is extended, the faculty member will receive one opportunity to re-apply for continuing contract status. If the faculty member is unsuccessful in this second attempt, or if he or she chooses not to re-apply, the faculty member's employment will cease at the end of the extension period.
10. When the President recommends awarding continuing contract, a continuation of annual contract status, or termination, and the Board concurs, the President will officially notify the faculty member of the Board's decision in writing. The candidate for continuing contract status shall not seek to influence the deliberations of the review committee or unduly influence any of the individuals on the evaluation committee outside of the bounds of the deliberation process. The candidate's application portfolio is the proper avenue for the candidate to present his/her case. Improper contact with the committee or one of its members may result in denial of continuing contract status.

The faculty member may appeal the decision as outlined below.

Post-Award Assessment of Faculty

After continuing contract status is awarded, faculty members will continue to participate in annual reviews of their activities with their Department Chair or Program Director. These will follow the same process as yearly reviews prior to the continuing contract award.

A post-award evaluation will be conducted by the Department Chair or Program Director and the Dean during the fifth year of the cycle. If performance problems are observed, the Department Chair or Program Director may notify the Dean of these problems, and corrective action may be prescribed. If significant cause is determined at the time of a post-award evaluation or before, the faculty member may be returned to annual contract status or dismissed according to the procedures outlined below.

Dismissal or Return to Annual Contract Status

After continuing contract has been awarded, the VPAA may determine that termination is warranted for a full-time faculty member's continuing contract for failure to meet post-award performance criteria or for cause in accordance with College policies and procedures upon recommendation by the President and approval by the Board. The VPAA will send a written recommendation to the President for termination of continuing contract, inclusive of the reason(s) for termination. The President may then consult with any relevant parties at his or her

discretion. The President may then make a recommendation for termination to the Board of Trustees. If the Board of Trustees agrees that termination is warranted, the President will notify the faculty member in writing.

In situations where failure to meet post-award performance criteria or other cause in accordance with College policies and procedures are less severe but still demonstrably significant, the VPAA may consider a return to annual contract status for a faculty member using the review process outlined above. The VPAA will implement a professional development plan with input from the faculty member, the Department Chair or Program Director, and the appropriate Dean. When the faculty member has completed the activities outlined in the plan, he or she applies to the VPAA to have continuing contract status reinstated by the Board of Trustees. The time between a return to annual contract status and reinstatement will not exceed two academic years. If the VPAA determines that the faculty member is unable to make effective corrections during this two-year period, the VPAA may recommend dismissal to the President.

Upon recommendation of the President, the Board may also terminate a full-time faculty member under continuing contract upon consolidation, reduction, or elimination of a program or restriction of the required duties of a position by the Board. In this event, the Board shall determine on the basis of the educational and financial goals of the College and the criteria set forth in the State Board of Education Rule 6A-14.0411, as amended, which full-time faculty employees to retain on a continuing contract and which shall be dismissed or returned to an annual contract. The President and Board may consider all or any relevant number of these criteria in making the determination. The decision of the Board shall not be controlled by any previous contractual relationship. In the evaluation of these factors, the decision of the Board shall be final. The President will notify the faculty member in writing with as much advance notice as possible.

Appeals

Faculty members have the right to appeal a decision resulting in denial of continuing contract status, dismissal, or a return to annual contract status within twenty-one calendar days of being notified of the decision, as set forth in this policy. The faculty member will appeal in writing to the VPAA and the President. In the case of denial of continuing contract status, an internal appeal may be made. In the case of a return to annual contract status or termination, the faculty member may choose either an internal appeal to the President or a formal administrative hearing in accordance with Florida Statutes [120](#).

Internal appeals to the President will be heard by an appeal committee within twenty-one calendar days of receipt of the written appeal. The committee membership will be similar to that of an evaluation committee. An equity representative will preside as chair of the internal appeal process. The faculty member may present evidence to the appeal committee, and the VPAA and/or President may present a rebuttal. The appeal committee will deliberate in private.

The committee will convey its written opinion to the faculty member, the VPAA, and the President. The Board of Trustees will make a final determination of the status of the faculty member upon receipt of the opinion of the appeal committee. The President has the right to provide a supplemental opinion to the Board of Trustees. In the case of a return to annual contract status or termination, faculty may request a formal administrative hearing in accordance with Florida Statute [120](#), by filing a petition with the Board within twenty-one (21) days of receipt of the recommendation of the President.

Other Faculty Contract Considerations

Upon hiring, faculty members are notified whether he or she is eligible for continuing contract status subject to conditions of College policy and procedure.

1. Faculty positions filled as a result of a competitive hiring process may be eligible for continuing contract.

2. Temporary positions shall not be eligible for continuing contract. Under the conditions described below, the President may recommend to the Board of Trustees a temporary faculty position for a semester, a year, or up to three years:
 - a. In the case of an emergency situation due to extended illness, death, or unexpected resignation where adjunct faculty members are not available or where no other full-time faculty members teach in the discipline. The temporary position will be terminated once the emergency situation is resolved.
 - b. Grant-supported, short-term programs intended to fill a temporary need.
 - c. Other short-term needs, such as completing a teach out plan for a discontinued program or degree
 - d. Other emergency or temporary situations.
3. If a temporary faculty position is needed beyond three years, a new continuing-contract-track position may be created upon the recommendation of the VPAA and approval by the President. If interested in this position, the employee serving in the temporary position must apply for the continuing-contract-track position in a competitive hiring process. The years in the temporary position may be counted toward the probationary five-year time period leading to a continuing contract award at the discretion of the President.

4.

Faculty members holding continuing contract status who are appointed to administrative positions may be granted a leave of absence from their faculty positions during the time they are serving in the administration. If administrative service is discontinued by either the faculty member or the administration, with or without cause, the faculty member may return to continuing contract status and resume full-time teaching responsibilities. No loss of rank, seniority, or privilege shall result from such an appointment.

Academic Rank

Academic ranks exist to define a faculty member's status in the hierarchy of the profession. Academic rank specifications represent a faculty member's progression through major landmarks in his or her career. Northwest Florida State College recognizes and awards the following academic ranks:

1. **Adjunct Instructor:** A faculty member appointed to a part-time, non-continuing contract-track teaching position.
2. **Visiting Instructor:** A faculty member appointed to a temporary, non-continuing contract-track appointment.
3. **Instructor: A faculty member appointed to a non-continuing contract-track appointment.**
4. **Assistant Professor:** A faculty member appointed to a full-time, continuing contract-track eligible teaching position.
5. **Associate Professor:** A faculty member who has been awarded a continuing contract.
6. **Professor:** A faculty member who has been awarded a continuing contract, and who has successfully completed two post-award reviews.* Faculty may not hold the rank of Professor with fewer than seven years of full-time teaching experience.

*Faculty members hired before July 1, 2013, who have achieved the rank of Professor shall retain this rank following implementation of this policy.

Other, Special Academic Ranks Recognized and Awarded by NWF:

Distinguished Professor: A rank given to a faculty member by the President in recognition of significant achievements.

Professor Emeritus: Academic rank awarded at Board discretion to faculty members who have retired holding the rank of Professor in expression of appreciation for their years of service and continuing commitment to the College mission.

Timeframe of Implementation of Policy and Procedures

A schedule of implementation shall be produced that staggers post-award reviews and establishes the timeline for continuing contract evaluations of faculty currently appointed to continuing contract-track positions. Generally, the timeframe of continuing contract evaluations and post-award evaluations and reviews will be based on the date a faculty member was hired.

1. For those hired before July 1, 2013, who have not yet had a continuing contract evaluation, this evaluation will occur three years from the date of initial appointment to a continuing contract-track eligible position. The continuing contract evaluation portfolio for these faculty members will only be required to include artifacts collected after July 1, 2013.
2. For those hired after July 1, 2013, the process described above will be followed with the continuing contract evaluation occurring during the fifth year after initial appointment to a continuing contract-track position. Post-award reviews will occur annually.
3. For those who were awarded a continuing contract prior to July 1, 2013, post-award evaluations will occur at no more than five-year intervals based upon the date of initial appointment to a continuing contract-track position. Post-award reviews will occur annually. The VPAA will create a schedule of post-award evaluations using the following process:
 - a. Determine the date of initial appointment to a continuing contract-track position.
 - b. Set a date five years from initial award of continuing contract for the first post-award evaluation. Subsequent evaluations would occur every five years after that. In the case of a faculty member who had completed ten years of service immediately prior to July 1, 2013, this faculty member would have a post-award evaluation in April 2018.

The VPAA reserves the right to request an evaluation of a faculty member at a date earlier than the maximum five-year interval. This may be the result of:

1. A concern regarding the ongoing performance of the faculty member.
2. A need to stagger a Department Chair or Program Director's evaluation workload because of the timing of reviews and evaluations
3. Consideration of prior years of experience from another institution in the computation of a faculty member's total years of service.

DATE ADOPTED: 11/15 REVISED: 03/19; 04/20	BOARD SECRETARY: 

PURPOSE OF POLICY

To define a credit hour and credit hour equivalency

LOCAL LANGUAGE

In accordance with Federal Regulations 34 [C.F.R. 600.2](#), SACSCOC Policy, State Board Rule [SBR 6A-14.030](#), and the Carnegie Unit definition, a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester for trimester hour of credit, or ten to twelve weeks for one quarter hour of credit or the equivalent amount of work over a different amount of time, or
2. At least an equivalent amount of work as required outlined in item 1 above for other academic activities as established by the institution including laboratory work, internships, practicum, studio work, and other academic work leading to the award of credit hours.
3. All instruction will consist of regular and substantive interaction between the student and the instructor, either synchronously or asynchronously.

The College adheres to the federal regulations [34 C.F.R. 600.2](#) and the State Board Rule [SBR 6A-14.030](#) definition of an hour as a 50-minute period of classroom instruction.

The College's procedures defining credit hour apply to all instruction, regardless of course format, length, level, location, or mode of delivery.

The College follows the following guidelines for the number of hours awarded for a course:

College Credit Courses: College credit courses are composed of lecture and/or laboratory hours. A class that meets 15 lecture hours receives one semester hour's credit. A class that meets 30-45 lab hours receives one semester hour's credit. In most lab courses, 30 lab hours earns one semester hour's credit. A limited number of classes in the sciences and other disciplines require 45 lab hours for one credit.

Distance Learning (Online) and Hybrid Courses: Credits for courses that differ from the traditional lecture are derived from the standard definition and follow [34 C.F.R. 600.2](#). For example, distance learning and hybrid courses require the same student learning outcomes and the equivalent amount of work and preparation. However, the instructional delivery to students in these courses utilizes technology such as the internet and video conferencing to bridge the physical separation of the instructor and student which supports regular and substantive interaction between the students and the instructor, either synchronously or asynchronously.

The College's Definition of a Clock Hour: The College adheres to the definition of a hour as a 50 minute block of time as defined in [34 C.F.R. 600.2](#) and State Board Rule [SBR 6A-14.030](#).

Continuing Education Courses: Continuing Education courses do not earn college credit. These courses are scheduled for the appropriate number of lecture and/or lab hours to meet content requirements.

The College does not offer credit via any method or calculation that differs from commonly accepted practices in higher education.

Family Educational Rights and Privacy Act (FERPA), Buckley Amendment

Northwest Florida (NWF) State College upholds the federal law, The Family Educational Rights & Privacy Act (FERPA), which gives students the right to inspect, and review their educational records, to have some control over the disclosure of information from their educational records and seek to amend their educational records. In addition, the College will not release or disclose information, nor allow inspection of records without prior written permission from the student except under certain circumstances where, by law, prior consent is not required. Under FERPA, students have the right to file a complaint with the U.S. Department of Education if they feel their records have been inappropriately released.

The College will provide currently enrolled students annual notification of their rights available under FERPA each fall of the academic year. The Student Handbook is produced within the College Catalog on an annual basis and available to students by way of the College's website.

NWFSC will follow procedures that comply with FERPA, as follows:

Right to Review and Inspect

Students, or eligible parents of the student, have the right to review and inspect their permanent student records. A student desiring to review records may do so by submitting a request, in writing, to the Executive Director of Academic Records & Enrollment who will schedule such inspections within 45 college business days of the request. A student desiring copies of educational records may receive such after payment of a fee of \$1.00 per sheet. This is exclusive of normal transcript service.

Right to Amend Educational Records

The student, or eligible parents of the student, may direct challenges related to the accuracy of the records to the Executive Director of Academic Records & Enrollment, who will schedule a hearing within 10 college business days of initial notification of the challenge to allow the student to present evidence relevant to the matter at such hearing. The student, or eligible parents of the student, will be notified in writing of the results. A student can insert a statement in his/her record after a hearing, if the college maintains, upholds or rules against the challenge.

Definitions

Eligible Parent - A parent or guardian who provides documentation that supports the student is a legal dependent for tax purposes.

Disclosure

There are two types of information distinguished under FERPA: personally identifiable information and directory information. Certain conditions exist with regard to disclosure of each kind of information. Northwest Florida State College complies as follows:

1. Personally identifiable Information
 - a. Personally Identifiable Information is information that would include identifying data such as social security number, academic work completed, grades, achievement test scores, aptitude test scores, health data, or other personal characteristics or information which would make the student's identity easily traceable. Prior consent, in the form of a signed and dated document, must be provided by the student to authorize the College to disclose personally identifiable information. The consent must specify education records that may be disclosed, should state the purpose of the disclosure, and must identify party or class of parties to whom disclosure can be made.

2. Directory Information
 - a. FERPA allows for the disclosure of directory information as identified by the institution. NWF State College has designated the following as directory information:
 - Name
 - Local and permanent address
 - NWF State College student email address
 - Major
 - Dates of attendance
 - Current enrollment status (FT/PT)
 - Degree(s) earned and date(s) awarded
 - Honors and awards
 - Prior postsecondary institution(s) attended
 - Participation in officially recognized activities and sports
 - Height and weight of student athletes

A student has the right to refuse designation of any or all of this directory information by notifying the Executive Director of Academic Records & Enrollment in writing at least 10 calendar days prior to enrolling in the term that the directory information block should

begin. Once a student obtains a confidential classification, it will not be removed until all signed authorization requesting it to be removed is received by the Office of Academic Records & Enrollment. A student's request to prevent the release of any informational items will result in preventing the publication of all items including graduation, honors, and awards.

Exceptions:

FERPA allows for the release of student records without written consent of the student under the following conditions:

1. To school officials with legitimate educational interest;
 - a. The College has designated school officials such as faculty, administration, professional employees, support staff, work-study students, or persons employed by or under contract to the College (example: an attorney or auditor) acting as an official agent of the College to perform a business function or service on behalf of the institution such as data collection.
 - b. A school official is determined to have legitimate educational interest if the information requested is necessary for that official to perform appropriate tasks that are specified in his or her position description or by a contract agreement; institution research and studies; perform a task related to a student's education; perform a task related to the discipline of a student; provide a service or benefit relating to the student or student's family, such as health care, counseling, job placement, or financial aid.
2. Disclosure to a school official having a legitimate educational interest does not constitute institutional authorization to transmit, share, or disclose any or all information received to a third party. An unauthorized disclosure of personally identifiable information from the education record of the students is prohibited;
3. In compliance with a court order or subpoena;
4. To eligible parents of a dependent student or such parents as defined in Section 152 of the Internal Revenue Code of 1954;
5. To schools in which a student seeks or intends to enroll;
6. To the Comptroller General of the United States; Attorney General of the United States; Secretary of the Department of Education; and federal, state, and local educational authorities involving an audit or evaluation of compliance with education programs;
7. In connection with the financial aid process;
8. In the event of a health or safety emergency where the information is required to resolve the emergency;
9. In the event a student under the age of 21 has committed a drug or alcohol offense;

10. As the result of a disciplinary hearing where the student is the perpetrator of a crime of violence or a non-forcible sex offense. Under this exception, information may be released to anyone, including the media. No information on the victim or witnesses may be released.

A student has a right to file a complaint to The Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., SW, Washington, D.C. 20202-4605, the office responsible for enforcing and administering FERPA. There are two basic requirements for a complaint to be properly filed against an institution in relation to FERPA infractions:

- The complaint must be made within 180 days of when the infraction was discovered.
- There must be sufficient facts (evidence) to prove the violation.

POLICY

TITLE: Institutional Compliance for Military Tuition Assistance	NUMBER: SS 7.00
AUTHORITY: DoD Instruction 1322.25	SEE ALSO: • BS 18.00
DATE ADOPTED: 03/21 REVISED:	BOARD SECRETARY: 

PURPOSE OF POLICY

To ensure institutional compliance with the Department of Defense rules for Military Tuition Assistance in alignment with the Department of Defense’s vision to shape quality educational experiences that result in meaningful value for Service Members, the Military Services, and society.

LOCAL LANGUAGE

The College President, or appropriate designee, will ensure the institution complies with the Department of Defense requirements as follows:

- The College will not use unfair, deceptive, and abusive recruiting practices.
- The College will refrain from providing any commission, bonus, or other incentive payment based directly or indirectly on securing enrollments or federal financial aid (including Tuition Assistance funds) to any persons or entities engaged in any student recruiting, admission activities, or making decisions regarding the award of student financial assistance.
- The College will refrain from high-pressure recruitment tactics such as making multiple unsolicited contacts (3 or more), including contacts by phone, email, or in-person, and engaging in same-day recruitment and registration for the purpose of securing Service member enrollments.
- The College will ensure DoD personnel are entitled to consideration for all forms of financial aid that educational institutions make available to students at their home campus. Educational institution financial aid officers will provide information and application processes for Title IV student aid programs, scholarships, fellowships, grants, loans, etc., to DoD Tuition Assistance (TA) recipients and that Service members identified as eligible DoD TA recipients will have their TA benefits applied to their educational institution’s account prior to the application of their Pell Grant funds to their account.
- The College will ensure that, if an eligible Service member decides to use Tuition Assistance (TA), the College will enroll him or her only after the TA is approved by the individual’s Service, the Education Service Officer, or a military counselor prior to enrollment.
- The College will ensure that before offering, recommending, arranging, signing-up, disbursing, or enrolling Service members for private student loans, Service members are provided access to an

institutional financial aid advisor who will make available appropriate loan counseling, including providing a clear and complete explanation of available financial aid, including Title IV of the Higher Education Act of 1965, as amended and explaining that students have the ability to refuse all or borrow less than the maximum student loan amount allowed.

- The College will ensure that its website includes a net price calculator. The College may use the template provided by the Department of Education or may develop a customized version that must include, at a minimum, the same elements as the Department's version.
- The College will provide meaningful information to students on the financial cost of attendance so military students can make informed decisions on where to attend school and disclose basic information about the educational institution's programs and costs, including tuition and other charges to the Service member. This information will be made readily accessible without requiring the Service member to disclose any personal or contact information.
- The College will ensure that, before offering, recommending, arranging, signing-up, disbursing, or enrolling Service members for private student loans, Service members will be provided access to an institutional financial aid advisor who will make available appropriate loan counseling, including disclosure of the educational institution's student loan Cohort Default Rate (CDR), the percentage of its students who borrow, and how its CDR compares to the national average. If the educational institution's CDR is greater than the national average CDR, it must disclose that information and provide the student with loan repayment data.
- The College will ensure that it has an institutional policy that returns any unearned TA funds on a proportional basis through at least the 60 percent portion of the period for which the funds were provided. TA funds are earned proportionally during an enrollment period, with unearned funds returned based upon when a student stops attending. In instances when a Service member stops attending due to a military service obligation, the educational institution will work with the affected Service member to identify solutions that will not result in a student debt for the returned portion.
- The College will be accredited by a national or regional accrediting agency recognized by the United States Department of Education and obtain the approval of their accrediting agency for any new course or program offering, provided such approval is required under the substantive change requirements of the accrediting agency before the enrollment of a Service member into the new course or program offering.
- The College will disclose general degree requirements for the Service member's educational program (evaluated educational plan) to the member and his or her Service before the enrollment of the Service member at the educational institution and degree requirements in effect at the time of each Service member's enrollment will remain in effect for a period of at least 1 year beyond the program's standard length, provided the Service member is in good academic standing and has been continuously enrolled or received an approved academic leave of absence.
- The College will disclose its transfer credit policies and articulated credit transfer agreements before a Service member's enrollment. Disclosure will explain acceptance of credits in transfer is determined by the educational institution to which the student wishes to transfer and refrain from making unsubstantiated representations to students about acceptance of credits in transfer by another institution.
- The College will designate a point of contact or office for academic and financial advising, including access to disability counseling, to assist Service members with completion of studies and with job search activities.

- The College will have a readmission policy for Service members that allows Service members and reservists to be readmitted to a program if they are temporarily unable to attend class or have to suspend their studies due to service requirements.

Intercollegiate student athletes who are under the age of 18 must have any contract for compensation for the use of their NIL approved under Florida Statute §§ 743.08 and 743.09, which together provide the procedure by which a minor (or the minor’s guardian, a party to the contract sought to be approved, or other interested person) submits a contract for compensation for approval to the appropriate circuit court

division.

Intercollegiate student athletes who enter a contract for compensation for their NIL must adhere to Florida Statutes § 1006.74(2).

Intercollegiate student athletes may not enter a contract for compensation for their NIL if the contract conflicts with a clause found in the student athlete's Letter of Intent or addendum(s) to that Letter. If the College asserts that such a conflict exists, the College must disclose each relevant term in the NIL contract that conflicts with the Letter of Intent or addendum(s) to the athlete or, at the athlete's request, to her or his representative.

The College may not prevent or restrict an intercollegiate student athlete from earning compensation for their NIL. Student compensation from their NIL does not include and may not affect the athlete's grant-in-aid or athletic eligibility.

The College may not compensate or cause compensation to be directed to any prospective or current intercollegiate athlete for the use of their NIL.

The College may not prevent or restrict an intercollegiate student athlete from obtaining professional representation for the purpose of securing compensation for the use of their NIL.
