Program Outcomes

As of May 2024, MLT Program Outcomes are based on two graduating cohorts.

External ASCP Certification Rate (2022-2023): 94.44%

External Certification Rate is defined as the number of students who passed the American Society for Clinical Pathology Board of Certification (ASCP BOC) MLT Exam divided by the number of students who sat for the exam within the first year of graduation.

Graduation Rate (2022): 100%

The Graduation Rate is defined as the number of students who began the final half of the program (defined as the clinical phase) during the given time period and have since graduated divided by the number of students who began the final half of the program minus the number of students who began the final half of the program but are still currently enrolled.

Employment Placement Rate: (2022-2023): 100%

The Employment Placement Rate is defined as the number of respondent graduates that looked for and found employment in the field or in a closely related field and/or continued their education within one year of graduation divided by the total number of respondent graduates.

Attrition Rate (2022): 0%

The Attrition Rate is defined as the number of students who began the final half of the program but subsequently left (voluntarily or involuntarily) divided by the number of students who began the final half of the program.
